REGULAR MEETING OF BOARD OF EDUCATION

The Board of Education of the City of Ada met in regular session Monday evening, January 6, at the office of the Superintendent. There were present the following: L. T. Walters, president; J. H. Collins, T. P. Holt, Supt. J. E. Hickman and Mabel Brown, secretary. After the general routine of business the special committee appointed to adjust the line between property owners adjoining the High School property on the east was continued, the committee not being ready to make its final report. On motion by Mr. Holt the Board gave its unanimous indorsement to the organization of the H. S. V. U. S. and pledged such financial support as may be necessary to maintain the organization. In this connection the Board favors an annual appropriation to take care of the physical inspection of all pupils in the High School. W. B. Adair was elected to take the school census of all white children in the district and L. B. McCutcheon the census of the colored children. On recommendation by the teachers' committee the board elected Charley Rayburn, D. T. Bradshaw and Mrs. T. M. Edwards to fill vacancies occurring in the schools since December 30.

The following is a resume of the Superintendent's monthly report to the Board: "It will be recalled in my report for the previous month that the schools were in session 8 days in October and 10 days in November. There has been no loss of time at any of the buildings for the current month except one-half day at Willard and one half day at Irving, due to low temperature in all the rooms in these buildings. There has been an additional difficulty this month. The flu has seemingly turned its attention to the teachers. During the month I have been forced to place three substitute teachers at Irving, five at Glenwood, two at Willard, one at South Ward and four in High School. It has been a difficult problem to provide qualified substitute teachers for all these places. The substitute teachers have of course been at a disadvantage and have not been able to keep the work up to the standard of regular teachers. This has meant more or less confusion and necessarily loss in the thoroughness of the work done. I regret the loss of Miss Maude Brents from the High School faculty. Miss Brents organized the Domestic Economy course in the High School and has had charge of it continuously since its organization. The department was in excellent condition at the time of her resignation and showed the results of her splendid work. The truant officer has reported that several families have been notified of their negligence in complying with the compulsory attendance law. All those notified have met with the requirements of the law within the five days specified in the notice served them, except one. This party has refused to place his children in school and has given no reason for so doing. Complaint has, therefore, been filed against him in the justice court. I regret to report it has been necessary to make two suspensions during the month. These pupils will be reinstated in the schools gladly when they meet the requirements of the principal at their buildings. As a whole the work is progressing as well as could be expected under the very unfavorable conditions to which I have called your attention."

"To begin with," he pointed out, "there are no laws of the air at present, and to bring the air into the commercial sphere without laws would produce chaos. There would be immediate trouble with the customs authorities of all nations. Adequate legislation will have to be framed to prevent contraband merchandise being carried through the air from one country to another.

"There will have to be a system of air customs, and that in itself presents many problems. Then, again, the unauthorized carrying of letters would bring in the postal authorities.

"To police the air presents other difficulties. Try to imagine an offender scudding away from an air policeman, whose machine may be the slower of the two, and hiding behind a cloud until everything was clear.

"It's a new world, and we've got to make proper arrangements for it." At present, navigation of aircraft of every description in the United Kingdom and the coasts and territorial waters adjoining is prohibited by law, with the exception of naval and military machines, or airplanes operating within three miles of a recognized aerodrome. That law, the official said, is likely to stand until the air ministry can map out a comprehensive scheme of air legislation.

GERMANS ON VERGE OF CIVIL CONFLICT

CLASH BETWEEN SOCIALIST FACTIONS REACHES LARGE PROPORTIONS.

By the Associated Press

PARIS, Jan. 9 (Havas).—The Ebert-Scheidemann government in Germany has been overturned, and the extremists have gained the upper hand in Berlin after sanguinary fighting, according to the latest advices received here. A new revolutionary government has been proclaimed, composed of independent socialists. Part of the government troops are reported to have deserted to the rebels and the Spartacists now hold the principal points in Berlin. Civil war is spreading to other parts of Germany, advices indicate, and the Rhenish provinces and Bavaria are reported involved.

Spartacists Driven Back.
BASEL, Switzerland, Jan. 9.—Troops loyal to the Ebert government have arrived in Berlin from Potsdam and driven the Spartacists

as far as Tiergarten and reoccupied the printing works, according to the Frankfurt Zeitung.

Had Fighting in Street.
AMSTERDAM, Jan. 9.—Street fighting in Berlin attained the greatest intensity between eleven o'clock Tuesday night and five o'clock Wednesday morning, according to a Berlin telegram to the Frankfurt Nachrichten. Heavy artillery fire continued uninterruptedly. The dispatch says the government is still master of the situation.

Rival Government Organized.
BERNE, Switzerland, Jan. 9.—Telegraphic reports from Berlin today state that the rebels had formed a new government under the title of revolutionary committee composed of three members, Herf Lieberman, George Ledebour and Herr Tieck, president of the Spartacan league. The dispatch seems to indicate that the new government is a rival to the Ebert-Scheidemann government and has not replaced it, as Paris advices report.

CONFERENCES POSTPONED

PRESSURE OF BUSINESS PREVENTS MEETING OF ALLIED LEADERS

By the Associated Press

PARIS, Jan. 9.—President Wilson's conferences with the Premiers of Great Britain, France and Italy, which were to have opened today, have been postponed and probably will not begin before early next week. Lloyd George is detained in London with work incident to cabinet reconstruction, and Premier Orlando of Italy must return to Italy for forty-eight hours because of important matters before the Italian Parliament. It is not expected now that the conference of Premiers will deal with more than the most general principles of the peace settlement.

FIVE SOCIALIST LEADERS CONVICTED

CHICAGO, Ill., Jan. 9.—All of the five Socialist leaders tried for conspiracy to violate the espionage law were found guilty by a jury late this afternoon in Federal court.

The defendants found guilty are: Congressman-Elect Victor L. Berger, publisher of the Milwaukee Leader. Adolph Germer, secretary of the National Socialist party. William F. Kruse, editor of the Young Socialist. Irwin St. John Tucker, writer and speaker.

J. Louis Engdahl, editor of the American Socialist. The specific charges upon which the men were found guilty were: Delivering public speeches and circulating public articles with wilful intent of causing insubordination, disloyalty and refusal of duty among the military and naval forces of the United States, and interfering with recruiting service and enforcement of the selective draft law.

The men face prison terms of from one to twenty years and a fine of from \$1 to \$10,000, or both, at the discretion of the trial judge.

WYLIE CORVIN DIES

WEDNESDAY OF PNEUMONIA.
Wylie Corvin died Wednesday evening at 8 o'clock at his home at Jesse from an attack of pneumonia. The funeral and interment will be at Egypt cemetery Friday afternoon under the direction of the Masonic fraternity.

Deceased was one of the best and most favorably known young farmers of Pontotoc County. He was a man of sterling character and industrious habits with an ambition to succeed. He was making progress and his prospects were bright. As a citizen he was one of the best in his community and was the leader in all the Red Cross and Liberty Loan campaigns in his community, always coming in with a fine report. The country can ill afford to lose such a citizen, but death loves a shining mark.

By the Associated Press

Ferryboats, steam lighters, towboats, coal barges, grain boats and other harbor craft were at a standstill. The strike was called following refusal of the boat owners association to arbitrate the eight hour day question.

Bismarck in imposing crushing terms on France at the conclusion of the war of 1870 remarked that politics knew no pity. Germany agreed with him at that time, and through the last war, as long as German arms were victorious, but how about it now?

Dear Father:

As today is Father's Day I will write you again. Well, dad, I don't know what to write about first, there is so much to write. Now that the war has come to a close we are permitted to tell where we have been all this time (Somewhere in France) and what we have been doing. We first landed in France at La Havre near the coast of Belgium but we only stayed there a day and night then we moved on to Bordeaux, staying there from the 22nd of July until the 8th of October. Then we moved within eight or ten miles of Anloeta in a little village where we stayed until November 18th. We landed in the camp we are in now the 19th of November. This town is the one they were fighting for the 11th of November. And the last shot was fired here by our infantry.

Believe me, dad, the boys sure got every German they saw the last few days. As we came up the road to Stearns we saw a lot of Huns that were killed in their retreat from Verdun, France, to this place. We also found a lot of shell used in the Big German guns. Some of them were 15 inch shells and 4 or 5 feet long.

PHYSICALLY FIT AT ANY AGE

It isn't age, it's careless living that puts men "down and out." Keep your internal organs in good condition and you will always be physically fit.

The kidneys are the most over-worked organs in the human body. When they break down under the strain and the deadly uric acid accumulates and crystallizes look out! These sharp crystals tear and scratch the delicate urinary channels causing excruciating pain and set up irritations which may cause premature degeneration and often do turn into deadly Bright's Disease.

One of the first warnings of sluggish kidney action is pain or stiffness in the small of the back, loss of appetite, indigestion or rheumatism.

Do not wait until the danger is upon you. At the first indication of trouble go after the cause at once. Get a trial box of GOLD MEDAL Haaren Oil Capsules, imported direct from the laboratories in Holland. They will give almost immediate relief. If for any cause they should not, your money will be refunded. But be sure you get GOLD MEDAL. None other is genuine. In sealed boxes, three sizes.

So you see they haven't been playing with toy guns.

From Verdun 'to this town (Stearns) what they could not take with them they destroyed.

I have several German souvenirs to bring home with me when I come and I think that won't be over four or five months from now. We are going up to the boundary of France and Germany now in a few days. Well, dad, I have written enough about France I guess. How is mother and the kiddies? How is my little wife? Tell her I will be home in a few months to stay. I guess you all are having some winter over there by now. We have had some pretty cold spells over here. But we don't mind that for we have good barracks—but our beds are not extra good. Guess you will have a big dinner Thanksgiving. Think of me!

Well, I must write Marguerite so I will close. Write soon all the news from home. Love to all.

Your son,
CAREY.

FOR COLDS AND GRIPPE

The Improved Calomel Tablet That is Entirely Purified of all Nauseating and Dangerous Qualities.

Physicians are warning the public against trifling with colds and grippe. They say that a brisk calomel purgative, preferably Calotabs, the new and improved calomel tablet should be invariably taken at bed time and repeated the second or third night, if necessary. In the earliest stages, one Calotab is usually sufficient unless the case is particularly severe.

Physicians say that it is a waste of time and is dangerous to experiment with other laxatives, as calomel is absolutely necessary sooner or later. One Calotab on the tongue at bed time with a swallow of water—that's all. No salts, no nausea nor the slightest interference with diet, work or pleasures. Next morning your cold has vanished and your whole system is purified and refreshed. Calotabs are sold only in original sealed packages. Price thirty-five cents. Recommended and guaranteed by druggists everywhere. Price refunded if you are not delighted.—adv.

To Be Friends Again.

One of the best ways of healing a quarrel is to ask a favor. If we attempt to do a kindness to a friend who is alienated, she will probably suspect our motive and reject it. But if we ask a service of her, the barrier of misunderstanding will melt like snowflakes in the sun, and the way will be opened for us to be friends again.

Largest Volcano.

The largest volcano center in the world is that of Haleakala in Hawaii. It is 20 miles across and in places, 2,000 feet deep. New York city could be dropped into the crater with all its skyscrapers intact, and it would be completely hidden from any person beyond the rim of the crater.—People's Home Journal.

JAPANESE CELEBRATE RETURN OF PEACE.

YOKAHAMA, Japan, Dec. 20.—

The city of Yokohama held a most enthusiastic day's celebration in honor of the conclusion of the armistice. Green arches of triumph spanned the roads and festoons of rainbow cloth spanned the buildings. Greetings of victory or "banzai" were heard on all sides. Japanese lantern processions were held in the evenings and were reviewed at the American consulate by George H. Seidmore, consul-general and other members of the consulate.

The Japanese held a great reception in the Memorial Hall and a garden party on the grounds. Governor Ariyoshi and the consuls of all allied powers received the congratulations of the guests.

A procession of decorated motor cars, largely participated in by the foreign residents, was held in the day and the celebration was closed with a masked ball at the Gaiety Theater.

SALVATION ARMY ENTERS JERUSALEM.

LONDON, Jan. 9.—(Special)—The contingent of the Salvation Army recently sent to Palestine will soon enter Jerusalem and unfurl the "fire and blood" flag of that organization in the Holy City.

The Salvation Army hopes that this entry will be but the beginning of a permanent organization in Bible lands. The soldiers of General Allenby's army are preparing to give the lassies a most hearty welcome for they are all waiting for the first fry of the famous S. A. doughnuts.

The lassies will reach the famine stricken district in time to aid in the distribution of relief to the starving Armenians and Syrians who are dying as fast as autumn leaves fall from the trees.

MRS. CORINNE LEE SANDERS DEAD.

Mrs. Corinne Lee Sanders, wife of J. L. Sanders, died at the family residence, East 7th and Hope, Tuesday afternoon. Death resulted from an attack of pneumonia. Besides her husband, she is survived by a son, seven years old.

The body will be taken to Centra-homa Friday for interment.

Red Cross Notes

The work is progressing nicely. The workers for Wednesday were Mrs. Simpson, captain; Mesdames Holden, Boggan, Cain, Wilson, and Sledge. Seventeen garments were made.

Mrs. Snead is much better and hopes to be down next week.—Reporter.

Printing in China.

The Chinese follow the primitive way of printing from engraved wooden blocks. The matter to be printed is first written by means of ink, upon paper which is pasted face downward upon a block of a pear or plum tree. After the paper becomes dry it is rubbed until an inverted impression of the characters is left. Then the blank spaces are cut away and the block is turned over to the printer, who works by hand. He takes care to ink the characters equally and to avoid tearing the impression.

"President Maker."

Thurlow Weed, an old-time political leader of New York, was called "the president maker." He was prominent in procuring the nomination of General W. H. Harrison in 1840, of General Taylor in 1848 and of General Scott in 1852, though the last named was not elected. In 1860 he supported Lincoln, though he had favored the nomination of William H. Seward of New York. He never held any public office.

Oldest Timber.

What is described as the oldest timber in the world which has been used by man is found in an ancient temple of Egypt. This timber is used in connection with stone work, which is known to be more than 4,000 years old. This wood—and the only wood employed in the construction of the temple—is in the form of ties which hold the end of one stone to another. The ties appear to be tamarisk, of which the ark was constructed.

Looking Ahead.

A baby boy arrived one morning Hunter, three years old, had been given two Billy goats for his last birthday. That morning his father said: "Now Hunter, you don't need two goats, suppose you give your little brother one. What do you say?" Hunter didn't say anything for a minute then he said: "Father, I've been thinking it over, and I've decided maybe I'd better save that goat for my own little boy."

How a Father Has Learned to Save Shoe Bills.

"My son is very hard on shoes, so keeping him properly shod has been quite an expense to me," writes Mr. J. Allison Allen, of Amity, Arkansas. "But since I started to buy Neolin-soled shoes for him I have found that it costs only about a third as much to keep him in shoes."

This is because Neolin Soles are so tough and durable that they wear a very long time. Shoe bills are kept down because you don't need so many pairs.

You can get Neolin-soled shoes at almost any good shoe store. They come in all styles and for all members of the family. Neolin Soles are also available everywhere for re-sooling. They are produced by a scientific process to be what shoes ought to be: comfortable, waterproof and long-wearing. They are made by The Goodyear Tire & Rubber Company, Akron, Ohio, who also make Wingfoot Heels, guaranteed to outwear any other heels.

DAILY HEALTH TALKS The Many Mysteries of Nature

BY L. W. BOWER, M. D.
You can take an onion seed and a pansy seed, and plant them side by side in the same spot of ground. In one case, you get an onion, with its peculiarly strong odor, and in the other you get a flower of rare beauty. You can plant a poppy seed and get opium (a dangerous, habit-forming drug), or you can plant a rhubarb seed and get something that helps constipation. No scientist, living or dead, can explain these mysteries of Nature. Behind the invisible life germ in each seed is hidden the deep secret that nobody understands. Everything growing out of the ground seems intended for some use in establishing natural conditions. Dr. Pierce's Favorite Prescription is made of lady's slipper, N. Y., long since found out what is naturally best for women's diseases. He learned it all through treating thousands of cases. The result of his studies was a medicine called Dr. Pierce's Favorite Prescription. This medicine is made of vegetable growths that nature surely intended for backache, headache, weakening drains, bearing-down pains, periodical irregularities, pelvic inflammations, and for the many disorders common to women in all ages of life. Dr. Pierce's Favorite Prescription is made of lady's slipper root, black cohosh root, unicorn root, blue cohosh root and Oregon grape root. Women who take this standard remedy know that in Dr. Pierce's Favorite Prescription they are getting a safe woman's tonic so good that druggists everywhere sell it.
Favorite Prescription should have the full confidence of every woman in America because it contains no alcohol and no narcotic. Dr. Pierce knew, when he first made this standard medicine, that whiskey and morphine are injurious, and so he has always kept them out of his remedies. Send 10c to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y. for trial pkg. Tablets.

BRITISH GOVERNMENT DROPS CHARGES AGAINST SWEDEN.

By the Associated Press
LONDON, Dec. 20.—Charges of the British government that the former Swedish government, or Lieutenant-Colonel Wickland of the Swedish army, had allowed their names to be used as consignees for wool purchased with German money, have been dropped and several cases in the Prize Court involving \$2,500,000 in wool seized by the British navy have been settled.
Sir John Simon, appearing for the claimants, protested against the government's allegations. He called attention to statements made in the House of Commons that Sweden was sending raw wool to Germany to be spun into yarn and returned for use of the Swedish army, and declared that there was no foundation for the charge that the Swedish government had been guilty of a violation of neutrality.
The terms of settlement were not given out. Sir John Simon told the court it "will leave no soreness on either side and will express the friendly feeling which has in the past history of the two countries existed, and which both the Swedish and British governments desire to continue between these two great independent states."
Laid to rest in Rosedale cemetery at 4 p. m., Jan. 8, Edward, the 2 year old son of B. H. Murry of Lawrence. Funeral services conducted by Rev. R. E. L. Ford. The parents are both ill and were unable to attend the funeral.
